

## Environmental Policy

TOXIMEC SAL is committed to protecting the environment, preventing pollution, and promoting sustainability in all aspects of its operations related to the management, repackaging, transport, export, and treatment of hazardous and non-hazardous waste.

We recognize that our activities, particularly those involving chemical waste, contaminated soil, infectious medical waste, and other hazardous materials, may pose potential environmental risks. As such, we are dedicated to implementing and maintaining an effective Integrated Management System (IMS) in accordance with the requirements of ISO 14001:2015, as it relates to environmental performance.

### Our Environmental Commitments:

- 1. Legal Compliance:**  
We will comply with all applicable environmental laws, regulations, permits, and international conventions, including the Basel Convention and national waste management laws in Lebanon and destination countries.
- 2. Pollution Prevention:**  
We will take all practicable steps to prevent pollution and control environmental risks related to our activities, including emissions, spills, leakages, noise, and improper waste handling.
- 3. Sustainable Resource Use:**  
We strive to reduce the use of non-renewable resources and optimize energy and material efficiency in our operations and logistics.
- 4. Waste Minimization and Recovery:**  
We aim to promote waste segregation, reuse, and responsible disposal by working with certified treatment facilities, both locally and internationally.
- 5. Emergency Preparedness:**  
We maintain and test environmental emergency response plans for incidents such as chemical spills, fires, or container leakages, to minimize environmental harm.
- 6. Monitoring and Measurement:**  
We regularly monitor key environmental indicators and conduct audits to evaluate the effectiveness of our controls and identify opportunities for improvement.
- 7. Stakeholder Engagement:**  
We engage with our employees, clients, contractors, authorities, and the public to promote environmental awareness and shared responsibility.
- 8. Continual Improvement:**  
We are committed to the **continuous improvement** of our environmental performance through innovation, training, and investment in clean technologies.

This Environmental Policy is communicated to all employees, clients, and stakeholders. It is publicly available and reviewed periodically to ensure it remains relevant, effective, and aligned with TOXIMEC SAL's strategic direction and operations.
